

# Candle Comfort Candles

[www.CandleComfort.com](http://www.CandleComfort.com)

Ph: 503 330-0345 Email: [CandleComfort@msn.com](mailto:CandleComfort@msn.com)

Round and square pillar candles available in a variety of sizes, colors, fragrances and unscented candles. Our candles are scented and colored through out, not dipped like other candles you find on-line.

**Color matching is available, provided that you can supply us with a color sample swatch.  
Minimum order \$100 (Not including S & H)**

Because we use top quality ingredients our candles are virtually drip-less and burn evenly, never boring a hole through the middle as many other candle brands may do. There is very little wax waste left once our candles complete their burning cycle.

**Round pillar candles - Square pillar candles - One & Three wick candles**

White scented and white unscented candles available in any size

**All Pillar candles wholesale at up to 30% discounts plus buyers pay no sales tax**

when purchasing from us!

### *New Candle fragrances!*

Ylang and Amber - An alluring floral that combines nature's most exotic sumptuous floral Ylang, interweaving into an intoxicating base of amber and woods.

Black Cherry - the enticing aroma of wild black cherries. Sweet and powerful, the scent of a bushel of freshly picked cherries.

Cherry - A lively fruity scent of cherries.

Fresh Linen - Crisp, airy and refreshing!

Our retail prices are lower than what other candle manufacturers charge for

wholesale prices!

**Retail: \$20.00**

## [Sculpted Candles]

We privilege creation with originality and poetry; an exclusive collection of

candles. Each candle is hand poured into a state-of-art mold to give each piece its own signature and its unique patina. We add Jasmine oil to create a warm glow that fills your interior with refinement. Unscented candles also available.

As our sculpted candles begin to burn down the center, an effervescent glow takes place enhancing the natural beauty of each design. They are exceptionally slow burning to the end, leaving an exquisite piece of art intact. We use a refined paraffin blend and custom compounds to create the translucency and glow which distinguishes our candles from all others.

**\$ 48.00**

**Sculpted Candle Care Instructions**

Trim wick to 1/4" before lighting. For first time use, allow candle to burn for several hours or until desired width is achieved. Do not allow candle to burn to the edge or you risk ruining the outer design. If liquid wax begins to cover wick-blow out and let cool before relighting. Keep candle out of draft and away from children. Trim wick each time before relighting candle.
